  - a. Minutes approved
2. Updates from TLT (Teaching and Learning Team)
  - a. Thank You!
  - b. Team Culture
    - i. Unifying three areas under a “one-team” philosophy
    - ii. Biweekly all-hands meeting and off-week reports
    - iii. Shift from departmental to project-based structure
  - c. Data Initiative
    - i. Track data on number of trainings offered, impact on schools, number of students, etc.
    - ii. Tracking qualitative data that they receive on an ongoing basis
  - d. Pilot Projects
    - i. BlueSky Brainstorm
      1. Gather representation from across different schools and hierarchy of the university for “boundless brainstorming”/”grass is greener” exercise
      2. Student representation to be considered
    - ii. Course Continuity Planning
      1. Guy, Jared, Yordanos met with Terry Murphy to discuss both technological availability and how to spur faculty adoption of tools
        - a. Last time this was discussed (H1N1), this was rolled into broader conversation about business continuity and support expectations during event
        - b. Need for rudimentary faculty, staff, and student training and expectation management anticipated
      2. Strategic outlook implicates faculty senate, provost’s office, etc.
    - iii. QM Faculty Training
      1. Point on FS resolution regarding QM training for university instructional designers is almost completely met
      2. Pilot project idea: Target small group of faculty (FAST group) to do QM training
        - a. School of nursing requires QM for all faculty teaching online
        - b. LAI-led QM workshop as a starting point
  - e. Open input...
    - i. Data initiative: how might we use data to evaluate and communicate impact on students?

- ii. ITL workshops could be lecture captured and edited into short video segments to be proactively posted/distributed
- 3. Update from ULC and Dean's Council
  - a. Bicentennial planning: rough timeline has launch date in Feb 2021
  - b. University to launch strategic planning process after board of trustees' retreat this summer
  - c. Medical enterprise update: GW now a stakeholder in medical faculty association 501(c)3, bringing medical faculty under GW's stronger balance sheet umbrella; university now has greater coordination and control rights over operation of MFA
    - i. Goal is to sustain GW medical school financially
  - d. University mission statement being rewritten
  - e. BoT Committee on Strategic Enrollment considering priorities
    - i. How to increase STEM majors?
